Report description:

Retail volume sales of home laundry appliances are expected to increase in the Philippines in 2024. Home laundry appliances sales continue to experience growth as penetration remains relatively low, while consumers are looking for a solution to save time on home chores, especially with many spending more time outside the home. The Philippines is also continuing to see rapid urbanisation, with many people moving to high-rise buildings in city areas. The smaller living space available in such build...

Euromonitor International's Home Laundry Appliances in Philippines report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
