Report description:

In 2024, total volume sales of meat are projected to experience a slight increase in Japan, which can be attributed to the continued recovery of sales to foodservice, and steady demand in retail, driven by a growing focus on health and wellness. The pandemic significantly impacted foodservice volume sales, especially during 2020, when the government declared a nationwide state of emergency. This led to reduced operational hours for food establishments. In addition, it led to the closure of schoo...

Euromonitor International's Meat in Japan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2019-2023, allowing you to identify the sectors driving growth.
