Report description:

Across personal accessories in the UK, product innovation and messaging in 2024 are largely focused around providing experiences and value to consumers. As discretionary spending on non-essential categories continues to suffer, retail volume growth remains low as consumers further adapt to their current economic position. Personal accessories in the UK continues to see the ramifications of external pressures, hindering stronger growth prospects for many categories. Supply chain disruptions, raw...

Euromonitor International's Personal Accessories in United Kingdom report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2019-2023), allowing you to identify the sectors driving growth.
