Report description:

City Profile - Warsaw; Comprehensive overview of the city, PEST analysis and analysis of key industries including technology, tourism and hospitality, construction and retail

Summary

"City Profile - Warsaw" provides historical and forecast data on key city level metrics along with analytical coverage of the latest political, economic, social, technological, infrastructural, legal and environmental issues affecting Warsaw.

The report contains detailed tourism, retail, construction, technology and public infrastructure data and insight into economic, social, and industry trends.

Warsaw metropolitan area remains the economic and business hub of Poland, contributed 17.2% to the nation's GDP in 2023. However, the area's growth slowed significantly due to high inflation, tighter monetary policies, and the impact of Russia's invasion of Ukraine. However, the area is forecast to grow faster outpacing other European cities Prague and Vilnius, at an average annual rate of 3.3% from 2024 to 2030.

Scope

- The service sector remained the key contributor to the Warsaw metropolitan area's economy and employment.
- Warsaw is a key tourist destination for both domestic and international tourists. Warsaw was named the most attractive tourist
