Report description:

Life Insurance & Pension in Japan

Summary

Life Insurance & Pension in Japan industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- Life insurance & pension is the financial cover for a contingency linked with human life, like death, disability, accident, retirement etc. Human life is subject to risks of death and disability due to natural and accidental causes. When human life is lost or a person is disabled permanently or temporarily, there is loss of income to the household.
- The Japanese life insurance & pension market recorded gross written premiums of \$286.2 billion in 2023, representing a negative compound annual growth rate (CAGR) of 3.0% between 2018 and 2023.
- The life insurance segment accounted for the market's largest proportion in 2023, with total gross written premiums of \$253.4 billion, equivalent to 88.5% of the market's overall value.
- The growth in the Japanese life insurance & pension market is being driven by the increasing population of individuals aged 25 and above. As this demographic reaches key milestones in their careers and personal lives, such as marriage and starting families, the demand for life insurance policies is on the rise. According to the United States Census Bureau, the population of individuals aged 25-29 years in Japan stood at 6.2 million in 2023, an increase of 0.3% from the previous year.

Scope

- Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the life
