### **Report description:**

Non-Life Insurance in Pakistan

#### Summary

Non-Life Insurance in Pakistan industry profile provides top-line qualitative and quantitative summary information including: market size (value 2018-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

#### Key Highlights

- Non-life insurance is defined as any insurance not determined to be life insurance. It includes automobile and homeowners' policies and provides payments depending on the loss from a particular financial event. The market value is measured by the written premium generated by market players within a given year.
- The Pakistani non-life insurance market recorded written premiums of \$0.6 billion in 2023, representing a negative compound annual growth rate (CAGR) of 3.0% between 2018 and 2023.
- The property segment accounted for the market's largest proportion in 2023, with total written premiums of \$0.3 billion, equivalent to 43.0% of the market's overall value.
- Rising inflation pressured the Pakistani non-life insurance market by increasing costs for both insurers and consumers. The National Statistics Office reports that Pakistan's consumer price inflation of health reached 18.1% in 2023, up from 12.4% from the previous year. This elevated the cost of premiums and claims, discouraging new policy purchases and renewals, thereby dampening overall market growth.

#### Scope

- Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the non-life
