Report description:

The tap water is of good quality in Slovenia, with many consumers choosing to drink it rather than buying bottled water. Major floods hit Slovenia again in the summer and second half of 2024, with a significant impact on the country's economy due to the damage on infrastructure and businesses. Flash floods and landslides were caused by heavy rainfall, affecting nearly half of the country. Although not as critical as in 2023, many consumers faced drinking water shortages, driving demand for still...
