Report description:

The market for childrenswear in Indonesia is set to see moderate growth in current value terms in 2024, continuing the trend of the previous year. Parents in Indonesia generally prioritise comfort and practicality for their offspring, with activewear made from lightweight, breathable, and stretchy materials in high demand. However, social media and celebrity culture are increasingly influencing purchasing decisions, particularly among millennials who are more accustomed to online shopping. Local...

Euromonitor International's Childrenswear in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023 and analysis by distribution format allowing you to identify the sectors driving growth.
