Report description:

The departure of many immigrants who arrived in Georgia during 2022, particularly toward the end of 2023, has continued to impact the consumption of hot drinks in 2024. This reduction in immigrant numbers has contributed to a deceleration in the growth of hot drink sales, despite Georgia's stable economic performance and relatively steady exchange rate. The persistent rise in raw material costs, particularly for coffee, has pressured industry players to implement price increases throughout the y...

Euromonitor International's Hot Drinks in Georgia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2020-2024, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution or pricing issues. Forecasts to 2029 illustrate how the market is set to change.
