Report description:

Personal accessories in South Korea is set to see negligible retail volume growth in 2024, along with dynamic retail current value growth. The much stronger value growth is due to price rises and the strength of luxury sales. While the economic downturn initially seemed to reduce luxury sales at department stores, recent trends show a rebound, particularly for watches and jewellery. Although luxury bags is also set to see growth, some consumers are shifting away from such easily accessible items...
