Report description:

Sales of vacuum cleaners continued to see steady growth in retail volume terms in 2024. There has been an increased focus on maintaining a clean and hygienic home environment since the pandemic which has helped to drive growth. Nonetheless, growth was slower in 2024 than in the previous year. This was in part due to the slowdown in the property market, which reported some of the lowest results since the 2008 financial crisis. Additionally, many consumers invested in vacuum cleaners during the pa...
