Report description:

Total volume sales of vegetables rose in France in 2024. Fresh vegetables remain an essential product for French consumers, although volumes stagnated in the previous year as prices continued to rise for certain products. French consumers expect to change their eating habits seasonally and want to buy French vegetables where possible. The growth in plant-based diets has helped to boost sales, as well as the growing awareness of the key role that eating vegetables generally has in a healthy and b...

Euromonitor International's Vegetables in France report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2020-2024, allowing you to identify the sectors driving growth.
