### **Report description:**

The trend for cooking regularly at home, accelerated by the pandemic, remains prevalent and is positively impacting retail demand for vegetables in South Africa. This is now largely due to the high cost of eating out during times of economic pressure and decreased disposable incomes. High levels of inflation are placing pressure on household budgets, resulting in a greater drive to save money. One of the most effective ways to save is to cook more meals from scratch at home. Vegetables, being a...

Euromonitor International's Vegetables in South Africa report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2020-2024, allowing you to identify the sectors driving growth.
