Report description:

In 2024, womenswear in Vietnam is set to record a slight recovery in both retail volume and current value terms, after experiencing declines in the previous year due to the gloomy economy. Although Vietnam is expected to see higher GDP by the end of 2024 compared with 2023, some people have still tended to limit their spending on unnecessary goods such as apparel and footwear to save money. Thus, they often wait for mega discounts of 50% or even 70%, or hunt for discounts on companies' live-stre...
