- Multiple User License (Global) €2985.00

Report description:

Sales of bleach declined in current value terms in 2024 as prices began to normalise. The high share of private label in the category and limited brand activation negatively affected the growth of the category in value terms. Bleach is classified as a basic category for most Greek households and hence consumers remain price sensitive and highly driven by promotions, which remains a key obstacle to growth in value terms.

Euromonitor International's Bleach in Greece market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2029 illustrate how the market is set to change.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Bleach market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
