Report description:

In 2024, bleach in Nigeria recorded a retail value uplift of 66%, while retail volume sales remained positive at 1%. These positive results were seen despite challenging economic conditions characterised by high inflation. The increased average unit price by 65% between 2023 and 2024 (and by 130% between 2022 and 2024) had a negative impact on demand, making demand slow down significantly compared to the review period. However, the availability of products in smaller pack sizes, ranging from sma...

Euromonitor International's Bleach in Nigeria market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
