Report description:

Dishwashing in North Macedonia saw retail volume sales grow in 2024 following three consecutive years of decline. This recovery was driven by improvements in purchasing power as the recent inflationary surge subsided, with consumers becoming less inclined to try to save money by consciously reducing their use of various product types. The sustained drop in inflation also meant current value sales increased at a slower pace than in 2023, though growth in this respect remained robust overall amid...

Euromonitor International's Dishwashing in North Macedonia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
