Report description:

Dishwashing in Slovakia posted healthy, if slower, retail current value growth in 2024. Growth was driven by the increasing popularity of convenience-based and perceived effective automatic dishwashing detergents. The rising popularity of these products is also enhanced by the perception that they have less of an impact on the environment. In this vein, the possession rate of dishwashers continued to increase steadily, albeit remaining below one third of households at the end of the review perio...

Euromonitor International's Dishwashing in Slovakia market report offers a comprehensive guide to the size and shape of the market at a national level.
