Report description:

It was a modest performance for home care in Algeria in 2024. With inflation continuing to be an issue, there was modest constant value and volume growth, and with similar growth across all segments. That being said, inflation was on a downward trajectory. However, value for money continued to be a key driver of sales, with consumers being highly price sensitive and availing of promotions and discounts as much as possible. This also benefitted local economy brands.
