Report description:

Home care in Norway witnessed a rebound in retail volume sales during 2024, as price increases moderated and inflationary pressures subsided. Despite the moderation in price inflation, average prices were still well above historic levels in home care. With many households still suffering cost-of-living pressures and disposable income levels failing to keep pace, consumers had to make cutbacks. Consumer confidence remained weak resulting in strong price sensitivity when buying home care. Househol...

Euromonitor International's Home Care in Norway market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2029 illustrate how the market is set to change.
