Report description:

In a cross-category trend, developments in home insecticides in Singapore in 2024 were also driven by consumers' demand for eco-friendly and non-toxic solutions. Indeed, consumers are increasingly concerned about the impact of traditional insecticides on health and the environment. This has led to a growing demand for natural, chemical-free, and biodegradable alternatives, such as plant-based repellents like citronella candles, or sprays with neem oil and lemongrass. For example, Dengard Natural...

Euromonitor International's Home Insecticides in Singapore market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
