- Multiple User License (Global) €2985.00

### **Report description:**

Home insecticides in Czech Republic benefitted from an overabundance of mosquitos in 2024. During the year, Czech Republic experienced a notable surge in mosquito populations, driven by an unusual combination of warm and wet weather that began in spring. Typically, mosquitoes are a seasonal issue confined to specific regions during the summer, but these favourable conditions extended their presence and activity, supporting sales despite negative volume growth for the overall category. Products s...

Euromonitor International's Home Insecticides in Czech Republic market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2029 illustrate how the market is set to change.
