- Multiple User License (Global) €2985.00

### **Report description:**

Tunisia is recording a significant rise in pollution levels, which contributes to the higher use of home insecticides. Typically, the municipal departments in each region manage household waste and maintain public sewage systems to control insect populations like flies and mosquitoes. However, many municipal services are now facing severe logistical challenges, including a shortage of trucks and essential materials to ensure daily maintenance. As a result, human waste remains untreated and conse...

Euromonitor International's Home Insecticides in Tunisia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
