Report description:

In 2024, laundry care in Argentina saw an uplift in retail value sales of 201%, while retail volume declined by 10%. These results were due to the economic crisis, which had a major impact on the consumption of home care products. The fall in consumers' disposable incomes forced many to be cautious with their budgets and reduce the consumption of non-essential products. However, some cleaning products are viewed as more essential than others, with laundry detergents being among these. Consequent...

Euromonitor International's Laundry Care in Argentina market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
