Report description:

Laundry care products saw strong growth in retail volume terms in 2024, boosted by more stable prices. The price of laundry care increased sharply in 2022 and 2023 due to spiralling costs and high inflation, but 2024 saw greater stability with some brands even delivering price reductions. These price drops were in part due to the fierce competition from private label which continued to challenge commercial brands that have been struggling to retain the loyalty of consumers.
