Report description:

Polishes in Brazil saw declines in both retail volume and current value terms in 2024. Cleaning habits have been changing in the country due to the entry of younger generation consumers in the market, as well as the rise of single-person households looking to save space and time, which is leading to decline for polishes. The largest category, floor polish, saw notable declines in 2024, as new and smaller apartment units that are constructed in major city centres in the country have been opting t...
