Report description:

Polishes in Latvia continued to contract in volume sales over 2024 although current value sales reported a healthy increase. In 2024, furniture polish exhibited the highest value growth rate. This growth is attributed to consumers appreciating the multifunctional nature of the polish, which not only effectively eliminates dust but also contributes to the overall care and preservation of furniture. This extended care helps prolong the service life of furniture, thereby playing a pivotal role in a...

Euromonitor International's Polishes in Latvia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
