### **Report description:**

Self-service cafeterias in the UK continued to record a positive performance across all indicators (value sales, transactions, and outlets) in 2024, despite some closures from chains such as Marks & Spencer. However, most chained self-service cafeterias continued to expand their networks, and benefit from increased transactions. Growth during the year was driven by a shift in behaviour among price-sensitive consumers searching for more convenient dining experiences.

Euromonitor International's Self-Service Cafeterias in United Kingdom report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth.
