Report description:

Surface care performed better in 2024 in comparison to 2023 both in retail volume and current value terms. A key factor influencing developments in 2024 was the government's decision to regulate prices in non-food categories by forcing companies to implement price drops. This did not lead to real declines in prices as while companies reduced their starting prices they also limited their discounting activities. As part of the price regulation scheme, companies that decided to increase their price...

Euromonitor International's Surface Care in Greece market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
