Report description:

Toilet care in the Philippines saw retail volume and current value growth in 2024. Toilet liquids/foam remained the dominant category, and it also saw the strongest growth rates, due to the frequent exposure of such products on television, as well as their accessible prices, and their well-established reputation. The only other categories with notable sales were rim blocks and in-cistern devices. Most consumers are aware of the importance of maintaining a clean and hygienic toilet to prevent the...

Euromonitor International's Toilet Care in Philippines market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
