Report description:

Retail volume growth of wearable electronics in India slowed in 2024, albeit remaining in the double digits due to factors such as increasing affordability, the premiumisation trend, and a rising focus on health and wellness. Consumers are increasingly migrating from simple activity bands to digital activity watches and smart wearables, due to the marginal price difference, and the myriad additional benefits that these watches offer. The growing preference for premium products also means that th...

Euromonitor International's Wearable Electronics in India report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Activity Wearables, Smart Wearables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Wearable Electronics market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
