### **Report description:**

The Europe Feed Acidifiers Market size is estimated at 616.2 million USD in 2025, and is expected to reach 784.8 million USD by 2030, growing at a CAGR of 4.96% during the forecast period (2025-2030).

- Acidifiers are a crucial component of animal nutrition as they enhance feed performance and reduce the uptake of pathogenic organisms and toxic metabolites. In Europe, the acidifiers market held a share of 7.0% in the total feed additives market in 2022, with a market value increase of 12.9% between 2017 and 2022.
- Propionic acid was the most widely used acidifier in the region, with a market value of USD 182.7 million in 2022, and the segment is projected to record a CAGR of 5% during the forecast period. It improves nutrient absorption and reduces pathogenic microbes, making it an ideal choice for animal feed.
- Poultry is the largest animal type segment in the European feed acidifiers market, and it accounted for 35.4% of the market share value in 2022. The segment is projected to register a CAGR of 5.0% during the forecast period. Feed acidifiers are extensively used in poultry birds to promote growth, increase metabolism, increase feed intake, and provide resistance to harmful pathogens.
- Lactic acid and fumaric acid are expected to be the fastest-growing segments in the region, recording a CAGR of 5.1% during the forecast period. Lactic acid helps improve gastrointestinal tract health in animals, digestibility, and high nutrient utilization when added to the compound feed.
- Spain, Germany, and France are the major markets in Europe, and they together held a market share of 45.3% in 2022. Spain's higher share was attributed to the country's higher feed production, with 12.1% of the total feed production in the region in 2022.

Based on increased feed production and the importance of feed acidifiers in animal nutrition, the market is projected to record a CAGR of 4.9% during the forecast period.

- The European region is one of the key markets for feed acidifiers, as it plays a crucial role in improving feed performance in animal nutrition and reducing the uptake of pathogenic organisms and toxic metabolites. As of 2022, feed acidifiers accounted for 7.0% of the European feed additives market in terms of value, and they increased by 12.9% between 2017 and 2022.
- Spain, Germany, France, and Russia are the major markets for feed acidifiers in the European region, with Spain, in particular, holding a significant market value of USD 81.8 million in 2022. The high share of Spain was due to the increased feed production by 2.5% in 2022 compared to the previous year. Spain's market value is anticipated to reach USD 116.4 million in 2029, with a CAGR of 5.2% during the forecast period.
- Germany is also a major market for feed acidifiers, with a market value of USD 81.4 million in 2022. This is projected to register a CAGR of 4.6% during the forecast period. This growth is attributed to the increased feed production in Germany by 0.9% between 2020 and 2022.
- The United Kingdom is expected to be the fastest-growing country in the feed acidifiers market in the European region during the forecast period, with a CAGR of 5.8%. This is due to the increased livestock population and feed production in the country, with total feed production increasing by 4.7% between 2017 and 2022.
- The increased feed production and livestock population are the key drivers for the market in the European region. As of 2022, the total feed production in Europe was 262.9 million metric tons, which increased by 2.0% from 2017. Consequently, the market is anticipated to register a CAGR of 4.9% during the forecast period.

#### Europe Feed Acidifiers Market Trends

Europe is 3rd largest exporter of poultry meat and broiler meat production accounted for 82.6% of poultry meat production which is expected to drive the demand for poultry production

- Europe is a prominent global poultry meat producer and exporter, and it had an estimated annual poultry meat production of approximately 13.4 million metric tons in 2021. Despite being the second-most consumed meat in the region at 26.9 kg per capita per year, European poultry production has not kept pace with rising global demand. The largest poultry meat producers in the European region include Poland (accounting for 19.2% of production, or 2.5 million metric tons), France (12.5%, or 1.6 million metric tons), Spain (12.3%), Germany (12%), and Italy (10.4%).
- Within the European Union, broiler meat production constituted the majority (82.6%) of total poultry meat production in 2021, followed by duck meat at 3.3%. Europe's poultry flock numbered approximately 2.45 billion birds in 2021, with Russia, France, the Netherlands, Ukraine, Poland, and the United Kingdom collectively comprising more than 50% of the population. The layer sub-segment is experiencing growth across Europe due to increased egg consumption, which rose to 6,135 thousand metric tons in 2021 from 5,864 metric tons in 2017.
- As the fourth-largest importer and the third-largest exporter of poultry meat, Europe is a significant participant in the global poultry meat market. In 2021, the European Union exported roughly 2,252 thousand metric tons (carcass weight) of poultry meat to various countries, including the United Kingdom, Ghana, and Ukraine. The rising production of poultry birds, increasing demand for poultry products, and growing consumption of eggs are expected to be the key drivers of market growth in Europe.

High demand for fish feed which accounted for 82% and surge in seafood imports had a negative impact on compound feed for aquaculture

- In 2022, Europe held a significant share of 8.0% in the global aquaculture compound feed production, with a production volume of 4.5 million metric tons. Compound feed production saw a notable increase of 15% between 2018 and 2022, driven by the growing demand for nutrient-balanced feed to reduce disease risk and improve feed efficiency. However, aquaculture feed production observed a decline of 21.2% in 2018, which may have been influenced by the surge in seafood imports and the relatively low prices of imported seafood, impacting the European compound feed market in 2018.
- The major aquaculture feed producers in Europe are Turkey, the United Kingdom, the Netherlands, Spain, Italy, and France, and the region produced 17.4 million metric tons of aquaculture species in 2021, indicating a growth of 1.7% since 2018. The growth was attributed to the rise in population and per capita seafood consumption, which is driving aquaculture production in the region. This, in turn, propels the demand for compound feed, which is expected to increase by 18.2% during the forecast period (2023-2029).
- Fish feed dominated aquaculture feed production, accounting for 82% share in 2022, followed by shrimp feed and other aquatic species feed, with shares of 4.3% and 13.7%, respectively, in the region. Fish food is the most consumed aquatic food across the region, and it is highly produced in comparison to other aquatic species. The expanding aquaculture industry, the rising demand for seafood and aquaculture products, and the growing awareness regarding quality meat are the major factors augmenting the growth of the market studied.

#### Europe Feed Acidifiers Industry Overview

The Europe Feed Acidifiers Market is fragmented, with the top five companies occupying 37.31%. The major players in this market are Adisseo, BASF SE, Brenntag SE, Cargill Inc. and SHV (Nutreco NV) (sorted alphabetically).

#### Additional Benefits:

- The market estimate (ME) sheet in Excel format
- 3 months of analyst support

#### **Table of Contents:**

##### 1 EXECUTIVE SUMMARY & KEY FINDINGS

##### 2 REPORT OFFERS

##### 3 INTRODUCTION

###### 3.1 Study Assumptions & Market Definition

###### 3.2 Scope of the Study?

###### 3.3 Research Methodology

##### 4 KEY INDUSTRY TRENDS

###### 4.1 Animal Headcount

###### 4.1.1 Poultry

###### 4.1.2 Ruminants

###### 4.1.3 Swine

- 4.2 Feed Production
  - 4.2.1 Aquaculture
  - 4.2.2 Poultry
  - 4.2.3 Ruminants
  - 4.2.4 Swine
- 4.3 Regulatory Framework
  - 4.3.1 France
  - 4.3.2 Germany
  - 4.3.3 Italy
  - 4.3.4 Netherlands
  - 4.3.5 Russia
  - 4.3.6 Spain
  - 4.3.7 Turkey
  - 4.3.8 United Kingdom
- 4.4 Value Chain & Distribution Channel Analysis

5 MARKET SEGMENTATION (includes market size in Value in USD and Volume, Forecasts up to 2030 and analysis of growth prospects)

- 5.1 Sub Additive
  - 5.1.1 Fumaric Acid
  - 5.1.2 Lactic Acid
  - 5.1.3 Propionic Acid
  - 5.1.4 Other Acidifiers
- 5.2 Animal
  - 5.2.1 Aquaculture
    - 5.2.1.1 By Sub Animal
      - 5.2.1.1.1 Fish
      - 5.2.1.1.2 Shrimp
      - 5.2.1.1.3 Other Aquaculture Species
    - 5.2.2 Poultry
      - 5.2.2.1 By Sub Animal
        - 5.2.2.1.1 Broiler
        - 5.2.2.1.2 Layer
        - 5.2.2.1.3 Other Poultry Birds
      - 5.2.3 Ruminants
        - 5.2.3.1 By Sub Animal
          - 5.2.3.1.1 Beef Cattle
          - 5.2.3.1.2 Dairy Cattle
          - 5.2.3.1.3 Other Ruminants
        - 5.2.4 Swine
        - 5.2.5 Other Animals
  - 5.3 Country
    - 5.3.1 France
    - 5.3.2 Germany
    - 5.3.3 Italy
    - 5.3.4 Netherlands
    - 5.3.5 Russia

- 5.3.6 Spain
- 5.3.7 Turkey
- 5.3.8 United Kingdom
- 5.3.9 Rest of Europe

## 6 COMPETITIVE LANDSCAPE

- 6.1 Key Strategic Moves
- 6.2 Market Share Analysis
- 6.3 Company Landscape
- 6.4 Company Profiles (includes Global Level Overview, Market Level Overview, Core Business Segments, Financials, Headcount, Key Information, Market Rank, Market Share, Products and Services, and Analysis of Recent Developments).
  - 6.4.1 Adisseo
  - 6.4.2 Alltech, Inc.
  - 6.4.3 BASF SE
  - 6.4.4 Borregaard AS
  - 6.4.5 Brenntag SE
  - 6.4.6 Cargill Inc.
  - 6.4.7 Kemin Industries
  - 6.4.8 MIAVIT Stefan Niemeyer GmbH
  - 6.4.9 SHV (NutraCo NV)
  - 6.4.10 Yara International ASA

## 7 KEY STRATEGIC QUESTIONS FOR FEED ADDITIVE CEOS

## 8 APPENDIX

- 8.1 Global Overview
  - 8.1.1 Overview
  - 8.1.2 Porter's Five Forces Framework
  - 8.1.3 Global Value Chain Analysis
  - 8.1.4 Global Market Size and DROs
- 8.2 Sources & References
- 8.3 List of Tables & Figures
- 8.4 Primary Insights
- 8.5 Data Pack
- 8.6 Glossary of Terms
