- Team License (1-7 Users) \$5250.00
- Site License \$6500.00
- Corporate License \$8750.00

Report description:

The Germany Electric Bus Battery Pack Market size is estimated at 27.82 million USD in 2025, and is expected to reach 72.7 million USD by 2029, growing at a CAGR of 27.14% during the forecast period (2025-2029).

The German electric bus battery pack market is expected to witness significant growth driven by a shift toward electric buses and government regulations

- The electric bus battery pack market in Germany is expected to see significant growth in the coming years. As of 2021, electric buses comprised around 10% of the country's total bus fleet, with over 3,000 electric buses in operation. By 2030, Germany aims to have all new buses purchased to be electric, leading to a potential sales volume of over 5,000 electric buses per year. Government regulations, environmental concerns, and the decreasing cost of battery technology drive this shift toward electric buses. The adoption of electric buses in Germany is expected to grow rapidly in urban areas, where air pollution is a major concern.
- With the growing demand for electric buses, the battery pack market is also seeing significant growth in Germany. Battery density and range have been steadily increasing over the years, and lithium-ion batteries have become the most widely used technology in the market. The cost of battery packs has also been decreasing, with a reduction of around 80% over the past decade. However, battery pack costs still remain a significant barrier to the adoption of electric buses, and further cost reductions are required to make electric buses more cost-competitive with diesel buses.
- The future of the electric bus battery pack market in Germany looks promising, with ongoing technological advancements and key battery pack manufacturers actively investing in research and development. Companies such as CATL, BYD, and Samsung SDI are among the key players in the market, with CATL being the largest supplier of battery packs for electric buses in Germany.

Germany Electric Bus Battery Pack Market Trends

TOP GERMAN EV MANUFACTURERS: VOLKSWAGEN, MERCEDES-BENZ, TESLA, BMW, AND HYUNDAI DOMINATE THE INDUSTRY

- The German electric vehicle market has a variety of players and is majorly driven by the five major players, accounting for more than 40% of the market in 2022. Some of the prominent players include Volkswagen, Mercedes-Benz, Tesla, BMW, and Hyundai. Volkswagen is the largest seller of electric vehicles in Germany, accounting for around 10.10% of the market. The company has a strong presence in European countries, including Germany. The company has a wide brand portfolio under its name, with a variety of product offerings in the electric vehicle range. A strong brand image and large customer base have put the brand at the top in Germany.
- Mercedes-Benz is the second largest seller of electric vehicles, accounting for around 8.59% market share across Germany. The company offers a variety of range of EVs for premium customers along with a strong service network across Germany serving customers. Third place in EV sales across Germany is acquired by Tesla, with around 7.55% of the market share. The company has strong innovative strategies and offers a wide variety of pure electric cars under its product offerings.
- BMW is the fourth largest player, acquiring around 6.72% of the market share in EV sales across Germany. The brand has a strong production and supply chain network and wide innovative and diverse product offerings in hybrid and pure electric vehicles. The fifth-largest player operating in the German EV market is Hyundai, maintaining its market share at around 6.25%. Some of the other players selling EVs in Germany include Audi, Renault, Kia, Seat, and Opel.

TESLA AND FIAT DRIVE THE GERMAN BATTERY PACK MARKET

- The demand for electric vehicles has been growing continuously over the past few years across Germany. It has also increased the demand for batteries in recent years. A variety of brands and various models are being sold in the country. However, a major share was acquired by the top five models in 2022, including Tesla Models Y, Tesla Models 3, Fiat 500, Ford Kuga, and Toyota Yaris. Tesla Model Y maintained its position at the top, with 35,426 units sold in 2022. Model Y is highly popular due to its long-range, good seating capacity, and large cargo capacity.
- The Tesla Model 3 took second place with 33,841 sales in Germany in 2022. The car is available in rear-wheel drive and performance versions. Due to its strong performance characteristics, Model 3 is drawing the attention of customers. Fiat 500 took third position in electric car sales, with sales of 29,635 in Germany. The car comes in hybrid and fully electric powertrain options and has highly attracted consumers looking for small electric cars on an affordable budget.
- The fourth place in the electric vehicle models' sales is acquired by the Ford Kuga with 28,410 in Germany. The car comes with the option of a hybrid and a plug-in hybrid option. The fifth place is acquired by the Toyota Yaris, selling 26,376 units in 2022 across Germany. Some of the other top-selling models include Volkswagen ID.3, Mitsubishi Eclipse Cross, Seat CUPRA Formentor, Hyundai Kona, and Volkswagen ID.4

Germany Electric Bus Battery Pack Industry Overview

The Germany Electric Bus Battery Pack Market is moderately consolidated, with the top five companies occupying 61.50%. The major players in this market are Akasol AG, BYD Company Ltd., Ebusco B.V., NorthVolt AB and Super B Lithium Power B.V. (sorted alphabetically).

Additional Benefits:

- The market estimate (ME) sheet in Excel format
- 3 months of analyst support

Table of Contents:

1 EXECUTIVE SUMMARY & KEY FINDINGS

2 REPORT OFFERS

3 INTRODUCTION

3.1 Study Assumptions & Market Definition

3.2 Scope of the Study?

3.3 Research Methodology

4 KEY INDUSTRY TRENDS

4.1 Electric Bus Sales

4.2 Electric Bus Sales By OEMs

4.3 Best-selling EV Models

4.4 OEMs With Preferable Battery Chemistry

4.5 Battery Pack Price

4.6 Battery Material Cost

4.7 Price Chart Of Different Battery Chemistry

4.8 Who Supply Whom

4.9 EV Battery Capacity And Efficiency

4.10 Number Of EV Models Launched

4.11 Regulatory Framework

4.11.1 Germany

4.12 Value Chain & Distribution Channel Analysis

5 MARKET SEGMENTATION (includes market size in Value in USD and Volume, Forecasts up to 2029 and analysis of growth prospects)

5.1 Propulsion Type

5.1.1 BEV

5.1.2 PHEV

5.2 Battery Chemistry

5.2.1 LFP

5.2.2 NCA

5.2.3 NCM

5.2.4 NMC

5.2.5 Others

www.scotts-international.com

- 5.3 Capacity
 - 5.3.1 15 kWh to 40 kWh
 - 5.3.2 40 kWh to 80 kWh
 - 5.3.3 Above 80 kWh
 - 5.3.4 Less than 15 kWh
- 5.4 Battery Form
 - 5.4.1 Cylindrical
 - 5.4.2 Pouch
 - 5.4.3 Prismatic
- 5.5 Method
 - 5.5.1 Laser
 - 5.5.2 Wire
- 5.6 Component
 - 5.6.1 Anode
 - 5.6.2 Cathode
 - 5.6.3 Electrolyte
 - 5.6.4 Separator
- 5.7 Material Type
 - 5.7.1 Cobalt
 - 5.7.2 Lithium
 - 5.7.3 Manganese
 - 5.7.4 Natural Graphite
 - 5.7.5 Nickel
 - 5.7.6 Other Materials

6 COMPETITIVE LANDSCAPE

- 6.1 Key Strategic Moves
- 6.2 Market Share Analysis
- 6.3 Company Landscape
- 6.4 Company Profiles
 - 6.4.1 Akasol AG
 - 6.4.2 Automotive Cells Company (ACC)
 - 6.4.3 BYD Company Ltd.
 - 6.4.4 Contemporary Amperex Technology Co. Ltd. (CATL)
 - 6.4.5 Ebusco B.V.
 - 6.4.6 LG Energy Solution Ltd.
 - 6.4.7 Liacon GmbH
 - 6.4.8 NorthVolt AB
 - 6.4.9 Panasonic Holdings Corporation
 - 6.4.10 Samsung SDI Co. Ltd.
 - 6.4.11 SK Innovation Co. Ltd.
 - 6.4.12 Super B Lithium Power B.V.
 - 6.4.13 Valeo Siemens eAutomotive

7 KEY STRATEGIC QUESTIONS FOR EV BATTERY PACK CEOS

8 APPENDIX
