Key Highlights

Electric Power Industry of Serbia is the largest energy company in Serbia, responsible for the generation, transmission, and distribution of electricity across the country. Established in 1991, the company plays a crucial role in ensuring a stable and reliable power supply to residential, commercial, and industrial consumers. Headquartered in Belgrade, Serbia, the company operates an extensive energy infrastructure that includes thermal, hydro, and renewable energy facilities, contributing significantly to the nation's energy security.

The company's operations span the entire Serbian territory, managing a vast network of power plants, transmission lines, and distribution centers. As part of its business strategy, Electric Power Industry of Serbia is actively engaged in energy trading and consulting services, enabling efficient electricity distribution both domestically and in regional markets. Additionally, the company is expanding its renewable energy portfolio by investing in wind and solar power projects, reinforcing its commitment to sustainable energy production.

Beyond electricity supply, the company focuses on energy efficiency programs, customer service, and technological advancements to enhance operational efficiency. By continuously modernizing its infrastructure and implementing innovative solutions, Electric Power Industry of Serbia remains a vital force in Serbia's energy sector, ensuring economic growth and long-term energy stability for the nation.
