**Report description:**

Orthopaedic Soft Tissue Repair Market Research Report information, By Application (Shoulder (Rotator Cuff Tears, Biceps Tendonitis, and Others), Knee (ACL Injuries, Meniscal Tears, Collateral Ligament Injuries, and Others), Hip (Hip Tendonitis, Labral Tears, and Others), Foot and Ankle (Plantar Fasciitis, Achilles Tendon Ruptures, Tibial Tendon Dysfunction, and Others)), End User (Hospitals, Ambulatory Surgical Centers, and Specialty Orthopaedic Clinics), Region (North America, Europe, Asia-Pacific, South America, and Middle East & Africa) Forecast to 2032

**Overview of the Market**

In 2023, the orthopedic soft tissue repair market was estimated to be worth USD 7,844.52 million. Over the course of the projection period, the industry is expected to increase at a compound annual growth rate (CAGR) of 8.98%.

The market is expanding because to an increase in orthopaedic surgery and sports-related injuries.

The global orthopaedic soft tissue repair market is expanding at a rapid pace because to the increased prevalence of sports-related injuries. Injuries to soft tissues including ligaments, tendons, and muscles are becoming more common as sports

**Scotts International. EU Vat number: PL 6772247784**

[www.scott-international.com](http://www.scott-international.com)

participation rises worldwide, particularly among professional athletes and amateur sports fans. ACL tears, rotator cuff injuries, and Achilles tendon ruptures are among the typical soft tissue injuries that are most frequently linked to high-impact and contact sports like football, basketball, soccer, and tennis.

#### Perspectives on Market Segments

The orthopaedic soft tissue repair market has been divided into segments based on application: should, knee, hip, foot, and ankle.

The Orthopaedic Soft Tissue Repair Market has been divided into three segments based on the end user: specialist orthopaedic clinics, ambulatory surgical centers (ASCS), and hospitals.

#### Regional Perspectives

North America, Europe, Asia-Pacific, and the Rest of the World are the regions into which the Orthopaedic Soft Tissue Repair Market has been divided. In 2024, North America held the biggest market share, which it is expected to maintain throughout the forecast period. Nonetheless, over the course of the forecast period, Asia-Pacific is anticipated to develop at the greatest CAGR. The market for orthopaedic soft tissue repair in North America is expanding rapidly due to several important factors, such as an aging population, an increase in sports-related injuries, a growing need for minimally invasive surgeries, and advancements in surgical and implant technologies.

Additionally, during the forecast period, the orthopedic soft tissue repair market in Europe is anticipated to grow significantly. The market is fueled by the presence of significant players who depend on product innovations, strategic alliances, and innovation to maintain their market share.

Due to an increase in musculoskeletal issues and disposable income, the orthopedic soft tissue repair market in Asia Pacific is anticipated to grow at the fastest CAGR during the forecast period. The market for orthopedic soft tissue repair in the area is seeing significant potential opportunities due to the growing presence of regional manufacturers of medical equipment.

Over the course of the forecast year, the orthopedic soft tissue repair market in MEA is anticipated to grow significantly. Early detection and prevention of sports-related injuries are major concerns of the growing number of sports medical institutions in both developed and developing nations.

#### Important Market Participants

Braun SE (Germany), Xiros Ltd. (UK), Zimmer Biomet (US), CONMED Corporation (US), Arthrex, Inc. (US), Johnson & Johnson Inc. (US), Integra Lifesciences Holdings Corporation (US), Stryker (US), Smith+Nephew (UK), and Boston Scientific Corporation (US) are important players in the orthopaedic soft tissue repair market.
