Report description:

The India office furniture market size reached USD 10.93 Billion in 2024. The market is expected to grow at a CAGR of 9.04% between 2025 and 2034, reaching USD 25.97 Billion by 2034.

Wood plays a crucial role in driving the India office furniture market growth, thanks to its ability to be crafted into a wide array of styles, ranging from traditional to contemporary, thereby providing versatility in office aesthetics

Wooden office furniture exudes a classic appeal through diverse colours and patterns, guaranteeing lasting endurance for generations, offering flexible designs for various styles, providing ample customization options, advocating eco-consciousness via sustainable sourcing and recyclability, and elevating comfort for heightened employee contentment.

Metal office furniture shines with exceptional durability, fending off damage, displaying contemporary, sleek looks with simple designs, maximizing space in small offices, requiring minimal upkeep, boasting fire resistance for safety, and often offering budget-friendly choices, ensuring long-lasting financial benefits.

In February 2024, HNI Office India Ltd, a division of HNI Corporation, inaugurated its innovative Experience Centre in Hyderabad's Hi-Tec City, showcasing a range of contemporary modular office furniture. The centre offered architects and designers inspiring opportunities to create exceptional workspace designs for memorable employee environments.
