### **Report description:**

The United Kingdom projector market is projected to grow at a CAGR of 5.56% between 2025 and 2034.

#### United Kingdom Projector Market Growth

The business projector segment incorporates projectors used across corporate offices, educational institutions, and professional settings. Usually composed of performance-oriented projectors capable of handling presentations, video conferences, and large meetings with good reliability. These projectors offer good brightness, flexibility, seamless wireless connectivity, and longer lamp life. The increasing work-from-office culture and meetings have also boosted the demand for business projectors.

In May 2023, BenQ introduced its new range of 4K home cinema projectors in the United Kingdom. The W4000i, W2710i, and TK860i models featured groundbreaking HDR-PRO technology for superior cinematic experiences at home. With precise colour reproduction and enhanced dynamic range, the projectors provide a vibrant colour experience with better viewing environments. Each model came equipped with Google-certified Android TV and preloaded Netflix for seamless streaming.

Portable projectors are designed to provide easy transportability and flexibility to their users. These projectors are compact and lightweight, making them ideal for on-the-go presentations at the client's side, outdoor movie nights, and travel. It comes with built-in battery options, seamless wireless connectivity, and quick and simple procedures to set up these devices. Portable projectors cater to professionals, educators, and consumers who require quick mobility and versatility in their projection solutions. With the increasing demand for flexible work and entertainment options, the popularity of portable projectors continues to grow.
