

Brazil In Vitro Diagnostics Market Report and Forecast 2025-2034

Market Report | 2025-06-20 | 250 pages | EMR Inc.

AVAILABLE LICENSES:

- Single User License \$2789.00
- Five User License \$3909.00
- Corporate License \$5099.00

Report description:

The Brazil in vitro diagnostics market was valued at USD 4.63 Billion in 2024, driven by the rising chronic diseases, elderly population and demand for non-invasive diagnostic technologies and tools in the region. The market is anticipated to grow at a CAGR of 5.80% during the forecast period of 2025-2034, with the values likely to reach USD 8.14 Billion by 2034. Robust healthcare reforms and expanding private laboratories are fueling diagnostic growth, while government initiatives enhance accessibility. Rising demand for molecular diagnostics and point-of-care testing is expected to drive adoption during the forecast period.

Brazil In Vitro Diagnostics Market Overview

In vitro diagnostics (IVD) are medical tests conducted on specimens such as blood, urine, or tissue, outside the human body to detect, monitor, or assess health conditions. These diagnostics are essential for accurate disease detection, treatment decisions, and overall patient management across various healthcare disciplines. The market is witnessing significant growth and is poised to grow at a CAGR of 5.80% during the forecast period of 2025-2034. It is driven by rising healthcare expenditures, increased emphasis on early disease detection, and the integration of advanced diagnostic technologies. Enhanced government initiatives and public-private collaborations further contribute to market expansion.

Brazil In Vitro Diagnostics Market Growth Drivers

Rising Chronic Disease Burden Among the Aging Population to Accelerate the Market Growth

The growing prevalence of chronic diseases among Brazil's elderly population is a major driver in the market. As highlighted by Wanderley Matos Reis Junior et al. March 2024 study, approximately 70% of Brazilians aged 60 and older are affected by at least one chronic illness, such as diabetes, cardiovascular disease, or hypertension. This significant health burden not only increases the demand for regular monitoring and early disease detection but also emphasizes the critical role of diagnostic testing in preventive and therapeutic healthcare. Consequently, the market in Brazil is expected to witness substantial growth.

Brazil In Vitro Diagnostics Market Trends

Some of the notable trends in the market are the enhancement of regulatory frameworks and the increasing adoption of genomics alongside advanced data analytics.

Regulatory Advancements to Boost Market Value

A notable trend in the market is the strengthening of regulatory frameworks to align with international standards. In March 2024, ANVISA introduced Resolution RDC N 830/2023, which consolidates IVD regulations and incorporates global guidelines such as the European IVDR. This regulation improves classification clarity and allows submission of technical documents in English, facilitating international collaboration and faster market access. These regulatory advancements are expected to streamline processes, increase market transparency, and drive sustained growth in Brazil's IVD sector.

Expansion of Genomics and Data-Driven Solutions to Meet Rising Brazil In Vitro Diagnostics Market Demand

The growing adoption of genomics and advanced data analytics is revolutionizing diagnostic processes by enabling more accurate and timely microbial risk management across industries. This trend enhances quality assurance and safety measures through next-generation sequencing and bioinformatics technologies. For instance, in January 2025, bioMerieux acquired Neopropecta, a Brazil-based company specializing in microbiome data platforms, which demonstrates how leading firms are leveraging innovative genomics solutions to strengthen diagnostic capabilities. Such developments underscore the increasing reliance on data-driven approaches, fueling significant growth and innovation within the market.

Brazil In Vitro Diagnostics Market Segmentation

The market report offers a detailed analysis of the market based on the following segments:

Market Breakup by Product & Services

- Reagents and Kits
- Instruments
- Software and Services

Market Breakup by Technology

- Immunodiagnosics
 - ??- Enzyme-Linked Immunosorbent Assay (ELISA)
 - ??- Enzyme-Linked Immunospot (ELISPOT)
 - ??- Rapid Tests
 - ??- Radioimmunoassay (RIA)
 - ??- Western Blotting
 - ??- Others
- Clinical Chemistry
 - ??- Basic Metabolic Panels
 - ??- Liver Panels
 - ??- Renal Profiles

Scotts International. EU Vat number: PL 6772247784

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

- ??- Lipid Profiles
- ??- Thyroid Function Panels
- ??- Electrolyte Panels
- ??- Specialty Chemical Tests

- Molecular Diagnostics
- ??- Polymerize Chain Reaction (PCR)
- ??- Isothermal Nucleic Acid Amplification Technology (INAAT)
- ??- Hybridization
- ??- DNA Diagnostics
- ??- Microarray
- ??- Others

- Hematology
- Microbiology
- Coagulation and Haemostasias
- Urinalysis
- Others

Market Breakup by Application

- Infectious Diseases
- Diabetes
- Oncology
- Cardiology
- Drug Testing/Pharmacogenomics
- HIV/AIDS
- Autoimmune Diseases
- Nephrology
- Others

Market Breakup by End User

- Hospitals
- Diagnostic Centers
- Point-of-Care Testing
- Academic Institutes
- Others

Brazil In Vitro Diagnostics Market Share

Segmentation Based on Application to Witness Substantial Growth

In the dynamic landscape of Brazil's healthcare sector, the in vitro diagnostics market is divided into key applications such as infectious diseases, diabetes, oncology, cardiology, drug testing, HIV/AIDS, autoimmune disorders, nephrology, and more. Infectious diseases are expected to lead the market, driven by the need for rapid and accurate diagnostics to manage widespread health concerns. According to the Pan American Health Organization 2024 report, Brazil recorded 41 new tuberculosis cases per

Scotts International. EU Vat number: PL 6772247784

100,000 population in 2022, with a mortality rate of 2.2 per 100,000 in 2019. Additionally, the HIV infection incidence rate was 19.5 per 100,000 population in 2021, supporting increased demand for infectious disease diagnostics.

Leading Players in the Brazil In Vitro Diagnostics Market

The key features of the market report comprise funding and investment analysis, and strategic initiatives by the leading players. The major companies in the market are as follows:

F. Hoffmann-La Roche Ltd.

F. Hoffmann-La Roche Ltd., headquartered in Basel, Switzerland and established in 1896, is a global leader in in vitro diagnostics. It provides a wide range of diagnostic tests, instruments, and digital solutions for diseases such as cancer, diabetes, COVID-19, and hepatitis. Their innovative laboratory and near-patient diagnostic systems support efficient, high-quality disease detection and patient management across Brazilian healthcare settings.

Bio-Rad Laboratories, Inc.

Founded in 1952 and headquartered in Hercules, California, Bio-Rad Laboratories, Inc. plays a significant role in the in vitro diagnostics market. The company offers QxDx Droplet Digital PCR (ddPCR) systems and CE-IVD-approved kits, including the AutoDG System and BCR-ABL %IS Kit, which support high-precision diagnostics and disease monitoring, particularly in oncology and genetic testing.

bioMerieux SA

bioMerieux SA is a global leader in in vitro diagnostics. The company actively supports regulatory initiatives such as the EU In Vitro Diagnostic Regulation (IVDR) and offers a wide range of diagnostic solutions for infectious diseases and clinical testing. In Brazil, bioMerieux contributes significantly to advancing laboratory diagnostics, providing high-quality, regulation-compliant products that enhance disease detection and patient care.

Abbott

Abbott, headquartered in Illinois, United States, is a healthcare and diagnostics player. Abbott plays a key role with its Architect i1000SR immunoassay analyzer. This system delivers high-throughput testing with enhanced workflow efficiency and is designed for in vitro diagnostic use, supporting clinical decision-making with reliable and rapid results.

Other key players in the market include Thermo Fisher Scientific Inc., Qiagen, Quidel Corporation, and Danaher Corporation.

Key Questions Answered in the Brazil In Vitro Diagnostics Market Report

- What was the Brazil in vitro diagnostics market value in 2024?
- What is the Brazil in vitro diagnostics market forecast outlook for 2025-2034?
- What major factors aid the Brazil in vitro diagnostics market demand?
- How has the market performed so far, and how is it anticipated to perform in the coming years?
- What are the market's major drivers, opportunities, and restraints?
- What are the major trends in the Brazil in vitro diagnostics market?
- Which product & services is expected to dominate the market segment?
- Which technology is projected to lead the market segment?

Scotts International. EU Vat number: PL 6772247784

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

- Which application is anticipated to drive the market segment?
- Which end user is likely to dominate the market segment?
- Who are the key players involved in the Brazil in vitro diagnostics market?
- What are the current unmet needs and challenges in the market?
- How are partnerships, collaborations, mergers, and acquisitions among the key market players shaping the market dynamics?

Table of Contents:

- 1 Preface
- 1.1 Objectives of the Study
- 1.2 Key Assumptions
- 1.3 Report Coverage - Key Segmentation and Scope
- 1.4 Research Methodology
- 2 Executive Summary
- 3 In Vitro Diagnostics Market Overview
- 3.1 Latin America In Vitro Diagnostics Market Overview
- 3.1.1 Latin America In Vitro Diagnostics Market Historical Value (2018-2024)
- 3.1.2 Latin America In Vitro Diagnostics Market Forecast Value (2025-2034)
- 3.2 Brazil In Vitro Diagnostics Market Overview
- 3.2.1 Brazil In Vitro Diagnostics Market Historical Value (2018-2024)
- 3.2.2 Brazil In Vitro Diagnostics Market Forecast Value (2025-2034)
- 4 Brazil In Vitro Diagnostics Market Landscape
- 4.1 Brazil In Vitro Diagnostics Market: Developers Landscape
- 4.1.1 Analysis by Year of Establishment
- 4.1.2 Analysis by Company Size
- 4.1.3 Analysis by Region
- 4.2 Brazil In Vitro Diagnostics Market: Product Landscape
- 4.2.1 Analysis By Product & Services
- 4.2.2 Analysis By Technology
- 4.2.3 Analysis By Application
- 5 Brazil In Vitro Diagnostics Market Dynamics
- 5.1 Market Drivers and Constraints
- 5.2 SWOT Analysis
- 5.2.1 Strengths
- 5.2.2 Weaknesses
- 5.2.3 Opportunities
- 5.2.4 Threats
- 5.3 PESTEL Analysis
- 5.3.1 Political
- 5.3.2 Economic
- 5.3.3 Social
- 5.3.4 Technological
- 5.3.5 Legal
- 5.3.6 Environment
- 5.4 Porter's Five Forces Model
- 5.4.1 Bargaining Power of Suppliers

Scotts International. EU Vat number: PL 6772247784

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

- 5.4.2 Bargaining Power of Buyers
- 5.4.3 Threat of New Entrants
- 5.4.4 Threat of Substitutes
- 5.4.5 Degree of Rivalry
- 5.5 Key Demand Indicators
- 5.6 Key Price Indicators
- 5.7 Industry Events, Initiatives, and Trends
- 5.8 Value Chain Analysis
- 6 Brazil In Vitro Diagnostics Market Segmentation (218-2034)
- 6.1 Brazil In Vitro Diagnostics Market (2018-2034) by Product & Services
 - 6.1.1 Market Overview
 - 6.1.2 Reagents and Kits
 - 6.1.3 Instruments
 - 6.1.4 Software and Services
- 6.2 Brazil In Vitro Diagnostics Market (2018-2034) by Technology
 - 6.2.1 Market Overview
 - 6.2.2 Immunodiagnosics
 - 6.2.2.1 Enzyme-Linked Immunosorbent Assay (ELISA)
 - 6.2.2.2 Enzyme-Linked Immunospot (ELISPOT)
 - 6.2.2.3 Rapid Tests
 - 6.2.2.4 Radioimmunoassay (RIA)
 - 6.2.2.5 Western Blotting
 - 6.2.2.6 Others
 - 6.2.3 Clinical Chemistry
 - 6.2.3.1 Basic Metabolic Panels
 - 6.2.3.2 Liver Panels
 - 6.2.3.3 Renal Profiles
 - 6.2.3.4 Lipid Profiles
 - 6.2.3.5 Thyroid Function Panels
 - 6.2.3.6 Electrolyte Panels
 - 6.2.3.7 Specialty Chemical Tests
 - 6.2.4 Molecular Diagnostics
 - 6.2.4.1 Polymerize Chain Reaction (PCR)
 - 6.2.4.2 Isothermal Nucleic Acid Amplification Technology (INAAT)
 - 6.2.4.3 Hybridization
 - 6.2.4.4 DNA Diagnostics
 - 6.2.4.5 Microarray
 - 6.2.4.6 Others
 - 6.2.5 Hematology
 - 6.2.6 Microbiology
 - 6.2.7 Coagulation and Haemostasias
 - 6.2.8 Urinalysis
 - 6.2.9 Others
- 6.3 Brazil In Vitro Diagnostics Market (2018-2034) by Application
 - 6.3.1 Market Overview
 - 6.3.2 Infectious Diseases
 - 6.3.3 Diabetes
