### **Report description:**

The United States adhesives and sealants market size reached approximately USD 10.51 Billion in 2024. The market is estimated to grow at a CAGR of 4.40% in the forecast period of 2025-2034, reaching a value of around USD 16.17 Billion by 2034.

### Key Trends in the Market

Adhesives are materials which are used to join two surfaces together whereas sealants provide a barrier between two surfaces to prevent the passage of air, moisture, and other elements. These versatile substances find growing applications in end-use sectors such as automotive, construction, and packaging, among others.

- Growing demand for low VOC adhesives and sealants, amid stringent regulations to reduce the use of VOCs that contribute to ozone depletion, is a major factor driving the United States adhesives and sealants market growth. These materials have minimal impact on indoor air quality as well as human health, making them a safer option compared to standard materials.
- Rising applications of adhesives and sealants in the healthcare sector after surgical procedures is a crucial trend aiding the market expansion. Adhesives can hold two sides of tissues together to promote wound healing whereas sealants can be used to prevent the leakage of air and fluids such as blood.
- Increased implementation of automation technology in the adhesive manufacturing process to improve the quality and precision of the process for delivering high-end materials is also expected to promote the United States adhesives and sealants market demand. Depending upon the level of complexity of adhesives, automation tools can be either manual, semi-automated, or fixed automation handles that provide specific operations.
- Market players are readily launching innovative adhesives and sealants for use in wearable devices in the medical sector. For example, in February 2023, 3M, a US-based company, launched skin-sticking adhesives for medical wearables that can last up to 4 weeks.

## United States Adhesives and Sealants Market Segmentation

United States Adhesives and Sealants Market Report and Forecast 2025-2034 offers a detailed analysis of the market based on the following segments:

### Market Breakup by Type

- Adhesives
- Sealants

### Market Breakup by End Use

- Electronics
- Automotive
- Building and Construction
- Footwear and Leather
- Aerospace
- Healthcare
- Packaging
- Woodwork and Joinery
- Others

### Market Breakup by Region

- New England
- Mideast
- Great Lakes
- Plains
- Southeast
- Southwest
- Rocky Mountain
- Far West

### Market Share by Type

Adhesives occupy a significant portion of the United States adhesives and sealants market share, owing to the growing demand for water-based adhesives that are resistant to moisture and water and find multiple applications in the automotive, paper labelling, and woodworking sectors. Reactive adhesives are also widely implemented for heavy-load industrial applications as they offer quick bonding and curing of surfaces.

Meanwhile, sealants are expected to witness sizeable growth in the upcoming years, due to the high demand for silicone adhesives that offer excellent water and temperature resistance, flexibility, and binding properties.

### Market Share by End Use

As per the United States adhesives and sealants market analysis, the packaging sector accounts for a substantial market share,

owing to the high usage of adhesives and sealants for food packaging solutions. Growing utilisation of these materials for PPE kits and surgical masks, among other healthcare packaging products, also aids the segment's growth.

The automotive sector is expected to foresee robust growth in the forecast period, due to the increased implementation of adhesives and sealants in repairing and joining different components of vehicles without the necessity of welding.

## Competitive Landscape

The comprehensive EMR report provides an in-depth assessment of the market based on the Porter's five forces model along with giving a SWOT analysis. The report gives a detailed analysis of the following key players in the United States adhesives and sealants market, covering their competitive landscape and latest developments like mergers, acquisitions, investments, and expansion plans.

### Henkel AG & Co. KGaA

Henkel AG & Co. KGaA, established in 1876, is a global chemical and consumer goods company, headquartered in Dusseldorf, Germany. The company contributes to the circular economy by utilising materials from sustainable sources, developing recycled packaging, and minimising resource consumption. Some of its popular brands include Dial, Fa, Loctite, and Persil, among others.

### 3M Co.

3M Co. is a multinational conglomerate of consumer goods and healthcare, incorporated in 1902 and based in Minnesota, the United States. Its comprehensive range of products includes adhesives, abrasives, sealants, tapes, films and sheeting, and personal protective equipment, among others.
