Report description:

The Turkey auto parts manufacturing market size reached approximately USD 8.77 Billion in 2024. The market is further projected to grow at a CAGR of 6.20% between 2025 and 2034, reaching a value of USD 16.00 Billion by 2034.

Key Trends in the Market

Auto parts manufacturing refers to the process of manufacturing different components for the motor vehicles. The multi-stage and complex process involves testing, designing, delivering, and assembling the components. Auto parts manufacturing companies specialise in the production of various essential components including suspension systems, engines, and brakes, among others.

- The expansion of the automotive sector is bolstering the Turkey auto parts manufacturing market growth. The rising urbanisation, disposable incomes, and population growth is propelling the requirement for vehicles. The increasing concerns about the environment are resulting in the adoption of environment friendly vehicles boosting the production of innovative automotive parts.

- Growing stringency of emission regulations is supporting the market expansion in Turkey as they are resulting in increased investments by the key players of the market towards research and development activities.

- Rapid adoption of novel technologies is providing lucrative growth opportunities to the market. 3D printing and robotics allow the production of customised and complex auto components and ensures greater precision, speed, and cost efficiency. They also aid in optimisation of designs and production of high performing and lightweight components, enhancing the fuel efficiency and vehicle performance.

Turkey Auto Parts Manufacturing Market Report and Forecast 2025-2034 offers a detailed analysis of the market based on the following segments:

Breakup by Component

- Cooling System
- Underbody Components
- Engine Components
- Electrical Components
- Automotive Battery
- Automotive Filter
- Lighting Components
- Chassis System
- Transmission and Steering System
- Others

Breakup by Sales Channel

- OEM
- Aftermarket

Breakup by Vehicle Type

- Passenger Cars
- Light Commercial Vehicles
- Heavy Commercial Vehicles
- Others

Competitive Landscape

The comprehensive EMR report provides an in-depth assessment of the market based on the Porter's five forces model along with giving a SWOT analysis.
