Construction in Italy

Summary

Construction in Italy industry profile provides top-line qualitative and quantitative summary information including: market size (value 2019-24, and forecast to 2029). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- Construction market includes both residential and non-residential construction. Market value refers to the total output value of construction activity in a specific year. Construction output value is defined as the total value of construction activity in any given period, including costs related to all materials, equipment, and services used.
- The Italian construction industry recorded revenues of \$358.3 billion in 2024, representing a compound annual growth rate (CAGR) of 10.7% between 2019 and 2024.
- The residential segment accounted for the industry's largest proportion in 2024, with total revenues of \$214.5 billion, equivalent to 59.9% of the industry's overall value.
- The growth of the Italian construction industry is driven by strategic government investments in transportation infrastructure projects such as roads, railways, metro, expressways, and urban transit systems. For instance, in February 2024, the European Investment Bank (EIB) extended a EUR1.2 billion (\$1.3 billion) loan under the "Improvement Program Italian Highway Network".
