Report description:

Government Spending in France

Summary

Government Spending in France industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume 2019-24, and forecast to 2029). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- Government spending refers to the money spent by the government of a country to provide goods and services to its citizens. It helps to drive economic growth, create employment opportunities, and improve the standard of living for its citizens.
- The French government spending market recorded expenditure of \$1,785.6 billion in 2024, representing a compound annual growth rate (CAGR) of 3.4% between 2019 and 2024.
- The social protection segment accounted for the market's largest proportion in 2024, with total expenditure of \$713.7 billion, equivalent to 40% of the market's overall expenditure.
- The expansion of the French government spending market in 2024 was shaped by labor market reforms aimed at tackling long-term unemployment and boosting youth employment. According to EUROSTAT, the youth unemployment rate in France increased to 19.8% in September 2024 from 17.2% in September 2023.

Scope
