Report description:

The Chile data center colocation market size is expected to grow at a CAGR of 18.49% from 2024 to 2030.

The number of third-party data center facilities in Chile is gradually growing. The country is an established market in Latin America and has around 38 existing colocation data centers spread mostly across Santiago, Paine, and Valparaiso. Some leading colocation operators in the Chile data center colocation market include Ascenty, EdgeConneX, Equinix, ODATA (Aligned Data Centers), and SONDA, among others.

Santiago's upcoming core & shell capacity is projected at around 180 MW due to developments by EdgeConneX, Ascenty, Cirion Technologies, Scala Data Centers, and Equinix. This capital-area buildout targets the country's highest demand concentration, leveraging dense network interconnections and substation-scale power availability, with campus-style shells enabling rapid IT fit-outs for multiple tenants. Furthermore, in 2024, the Chile data center colocation market was dominated by Cloud & IT, reflecting rapid cloud activities as enterprises shift capex workloads to managed environments.

WHAT'S INCLUDED?

- Transparent research methodology and insights on the industry's colocation of demand and supply.
- Market size is available in terms of utilized white floor area, IT power capacity, and racks.
- The market size available in terms of Core & Shell Vs Installed Vs Utilized IT Power Capacity, along with the occupancy %.
- An assessment and snapshot of the colocation investment in Chile.
- The study of the existing Chile data center industry landscape and insightful predictions about industry size during the forecast period.
- An analysis of the current and future colocation demand in Chile by several industries.
- Study on the sustainability status in the country
- Analysis of current and future cloud operations in the country.
- Snapshot of upcoming submarine cables and existing cloud-on-ramps services in the country.
- Snapshot of existing and upcoming third-party data center facilities in Chile
- o□ Facilities Covered (Existing): 38
