# Mobile Device Management (MDM) Software - A Global Market Overview

Market Report | 2025-08-13 | 573 pages | Industry Experts

**AVAILABLE LICENSES:**

- Single user licence (PDF) $5490.00
- Enterprise Electronic (PDF) $9090.00

**Report description:**

Global Mobile Device Management (MDM) Software Market Trends and Outlook

The global Mobile Device Management (MDM) software market is entering a transformative era marked by rapid digitization, intensified security demands, and cloud-native innovation. Valued at approximately US$7.7 billion in 2024, the market is projected to exceed US$20 billion by 2030, expanding at a strong CAGR of 17.6%. This growth is fuelled by the accelerating adoption of hybrid work models, expanding regulatory scrutiny, and the proliferation of mobile and endpoint devices across verticals and geographies.

MDM software is evolving beyond core device provisioning into comprehensive platforms integrating AI-powered threat detection, Zero Trust enforcement, and real-time compliance automation. Cloud-native delivery dominates, accounting for over 65% of deployments in 2024, as enterprises and SMEs alike seek scalable, subscription-based security solutions. As mobile phishing threats surge and endpoints diversify, vendors capable of delivering unified, intelligent, and flexible platforms will define the competitive landscape in the years ahead.

Leading players in the MDM software market include Microsoft (Intune), VMware (Workspace ONE), IBM (MaaS360), Ivanti, Jamf, Hexnode, Scalefusion, and Citrix. These vendors are shaping the industry by integrating MDM into broader endpoint security suites and offering SaaS-based, AI-augmented capabilities.

Mobile Device Management (MDM) Software Regional Market Analysis

In 2024, North America accounted for the largest share of the global MDM software market, contributing approximately US$2.9 billion, or around 37% of the global total. The region's dominance stems from early cloud adoption, a mature enterprise IT environment, and regulatory mandates driving security-centric deployments. Europe followed closely behind, supported by rising compliance investments across the EU, especially due to GDPR and emerging cybersecurity directives. Asia Pacific is projected to be the fastest-growing regional market between 2024 and 2030, registering a CAGR of 22.1%. This rapid growth is propelled by widespread mobile-first enterprise digitization across China, India, and Southeast Asia, alongside growing SME adoption of SaaS-based endpoint control platforms.

Mobile Device Management (MDM) Software Market Analysis by Software Type

As of 2024, Device Management remained the largest segment, accounting for nearly 46.5% of the global MDM software market. This dominance reflects the foundational role of device enrollment, policy enforcement, and remote wipe capabilities in MDM deployments. However, Security Management is the fastest-growing category, expanding at a CAGR of 22.2% between 2024 and 2030. This is driven by rising threats like mobile ransomware, phishing, and the increased need for Zero Trust architectures. Application Management follows with a robust CAGR of 20.3%, propelled by the need to control and secure app usage across corporate and BYOD environments.

Mobile Device Management (MDM) Software Market Analysis by Device Type

Smartphones led the market in 2024 with a value of US$3.9 billion, contributing nearly 50.7% of global revenue. This leadership is attributed to their ubiquity in enterprise mobility, particularly in hybrid and remote work models. However, Laptops represent the fastest-growing device type, expanding at a CAGR of 19.4% to reach US$6.0 billion by 2030. Enterprises are increasingly including laptops in MDM workflows to achieve unified endpoint management and streamline policy governance across all device types.

Mobile Device Management (MDM) Software Market Analysis by Deployment Type

Cloud-based deployment is the dominant and fastest-growing model, valued at US$4.7 billion in 2024 and expected to surpass US$13.5 billion by 2030, registering a CAGR of 19.4%. This preference is fuelled by the scalability, cost-effectiveness, and ease of implementation of SaaS-based MDM solutions, particularly among SMEs and globally distributed enterprises. On-premise models are still relevant in highly regulated industries but grow at a slower CAGR of 14.6%.

Mobile Device Management (MDM) Software Market Analysis by Company Type

Large enterprises accounted for a larger market share in 2024 at US$4.16 billion, but SMEs are expanding more rapidly with a CAGR of 19.1% through 2030. By the end of the forecast period, SMEs are projected to generate over US$10.1 billion, nearly reaching parity with large enterprises. Growing SaaS availability, modular pricing, and device proliferation in mid-sized firms are driving this trend.

Mobile Device Management (MDM) Software Market Analysis by Industry Sector

The IT & Telecom industry led the MDM software market in 2024. This leadership reflects the sector's high mobile workforce density, rapid device refresh cycles, and ongoing investment in secure endpoint management across globally distributed teams. Healthcare, while growing fast, ranked second in size. Retail & E-commerce emerged as the fastest-growing vertical during the forecast period of 2024-2030, with a CAGR of 20.8%, driven by widespread deployment of mobile POS systems, rugged handhelds in warehouses, and app-based retail operations. Healthcare is the second fastest-growing segment, supported by compliance-driven device adoption and secure mobility solutions for clinicians and administrative staff.

Mobile Device Management (MDM) Software Market Report Scope

This global report on Mobile Device Management (MDM) Software market analyzes the global and regional market based on Software Type, Device Type, Deployment Type, Company Type and Industry Sector for the period 2021-2030 with forecasts from 2024 to 2030 in terms of value in US$. In addition to providing profiles of major companies operating in this space, the latest corporate and industrial developments have been covered to offer a clear panorama of how and where the market is progressing.

Key Metrics
Historical Period: 2021-2024
Base Year: 2024
Forecast Period: 2024-2030
Units: Value market in US$
Companies Mentioned: 25+

Mobile Device Management (MDM) Software Market by Geographic Region
-North America (The United States, Canada and Mexico)
-Europe (Germany, the United Kingdom, France, Italy, the Netherlands, Spain, Russia, Switzerland and Rest of Europe)
-Asia-Pacific (China, Japan, India, Australia, Singapore, South Korea and Rest of Asia-Pacific)
-South America (Brazil, Argentina, Colombia, Chile, Peru and Rest of South America)
-Middle East & Africa (the United Arab Emirates, South Africa, Egypt, Saudi Arabia, Morocco, Kuwait, Qatar and Rest of Middle East & Africa)

Mobile Device Management (MDM) Software Market by Software Type
-Device Management
-Application Management (MAM)
-Content Management (MCM)
-Security Management
-Email Management
-Other Software Types

Mobile Device Management (MDM) Software Market by Device Type
-Smartphones
-Laptops
-Tablets
-Other Device Type

Mobile Device Management (MDM) Software Market by Deployment Type
-Cloud
-On-Premises

Mobile Device Management (MDM) Software Market by Company Type
-Large Enterprises
-SMEs

Mobile Device Management (MDM) Software Market by Industry Sector
-Banking, Financial Services, and Insurance (BFSI)
-IT & Telecom
-Manufacturing
-Government
-Healthcare
-Retail & Ecommerce
-Energy & Utilities
-Transportation
-Education

-Other Industry Sectors

**Table of Contents:**

PART A: GLOBAL MARKET PERSPECTIVE
1. EXECUTIVE SUMMARY
-A Roundup on Mobile Device Management (MDM) Software
-Market Segmentation for Mobile Device Management (MDM) Software
oSoftware Types
oDevice Types
oDeployment Types
oCompany Types
oIndustry Sectors
-Key Trends in Mobile Device Management (MDM) Software Market
2. INDUSTRY LANDSCAPE
-Global Mobile Device Management (MDM) Software Market Outlook
-Comprehensive Mobile Device Management (MDM) Software Industry Analysis - Growth Drivers and Inhibitors
oGrowth Drivers
oGrowth Inhibitors
-Market Entry Strategies for Mobile Device Management (MDM) Software Industry
-Startup Strategies for Mobile Device Management (MDM) Software Industry
-SWOT Analysis of Mobile Device Management (MDM) Software Industry
oStrengths
oWeaknesses
oOpportunities
oThreats
-Porter's Five Forces Analysis
-PESTEL Analysis
3. COMPETITIVE LANDSCAPE
-Market Positioning of Key Mobile Device Management (MDM) Software Companies
-Market Share Analysis of Mobile Device Management (MDM) Software Companies
-SWOT Analysis of Key Players in the Mobile Device Management (MDM) Software Industry
-Key Market Players
oBlackberry Ltd.
oBroadcom, Inc.
oCheckpoint Software Technologies Ltd.
oCisco Systems
oCitrix Systems
oCodeproof Technologies Inc.
oGoogle
oHexnode
oIBM Corporation
oIvanti
oJamf
oKaspersky Labs
oMicro Focus
oMicrosoft Corporation

o Miradore Ltd.
o MobilerIon, Inc.
o Qualys
o Quest Software
o Rippling
o Samsung
o SAP SE
o Scalefusion
o Snow Software
o SolarWinds Worldwide, LLC.
o Sophos
o SOTI Inc.
o VMware, Inc.
o Zoho Corp. Pvt. Ltd.
4. KEY BUSINESS & PRODUCT TRENDS
5. GLOBAL MARKET OVERVIEW
- Global Mobile Device Management (MDM) Software Market Overview by Type
o Mobile Device Management (MDM) Software Type Market Overview by Global Region
- Device Management
- Application Management (MAM)
- Content Management (MCM)
