Report description:

The global fire extinguisher market size reached around USD 5.01 Billion in 2024. The market is projected to grow at a CAGR of 5.70% between 2025 and 2034 to reach nearly USD 8.72 Billion by 2034.

Europe is the leading region for the industry, accounting for the majority of the share of the fire extinguisher market. Leading manufacturers are concentrating on introducing environmentally friendly extinguishers based on gas or powder fire that do not emit toxic gas or residues. They also produce a broader range of products, including small, lightweight, and cost-effective fire extinguishers. In addition, many businesses are concentrating on M&A to increase their customer base and broaden their business operations globally. For example, Kidde, a leading key player of fire detection as well as suppression equipment, has successfully acquired the production operations of the British specialty chemical company, Croda International, both in Liverpool and Lyon.

Fire Extinguisher Industry Segmentation

A fire extinguisher refers to a portable protective system that is commonly used for the reduction and minimisation of the possible pre-arrival damage of firefighters. It consists of a cylinder with a lifting agent, a screw, a handle as well as a pressure indicator. It works mainly through the expulsion of a high-pressure extinguishing agent, which helps to cool off the combustion content, to reduce the oxygen inflammation and to prevent the chemical reaction of the flame.

Based on the product, the market can be divided into the following:

- Portable
- Knapsack
- Wheeled

On the basis of the extinguishing agent, the industry can be segmented into:

- Dry Chemical (Powder)
- Foam
- Carbon Dioxide
- Others

Based on fire, the market can be categorised as follows:

- Class A
- Class B
- Class C
- Class D
- Class K

It finds wide applications in the following sectors:

- Industrial
- Commercial
- Residential

The regional markets for fire extinguisher include:

- North America
- Europe
- Asia Pacific
- Latin America
- Middle East and Africa

Market Analysis

Governments in many countries are adopting high safety requirements to avoid accidents caused by fire outbreaks that are unforeseen. In particular, in homes, restaurants, hotels, schools, hospitals, bureaus, and factories, fire extinguishing devices are being promoted. Industrialisation rates, together with the growth of trade areas, especially in developing countries, further reinforce the demand for extinguishers. In addition, insurance agencies have an influence on the market, which involves the installation of a fire extinguisher in insured buildings. In addition, eco-friendly, powder-based, or gas fire-extinguishers are being developed by industry leaders, which do not emit toxic gasses. These factors are expected to influence the fire extinguisher market positively.

Competitive Landscape

The report gives a detailed analysis of the following key players in the global fire extinguisher market, covering their competitive landscape, capacity, and latest developments like mergers, acquisitions, and investments, expansions of capacity, and plant turnarounds:

- Amerex Corporation
- The Desautel Group
