Report description:

The global industrial air blower market stood at a value of around USD 5129.53 Million in 2024. The market is further expected to grow in the forecast period of 2025-2034 at a CAGR of 4.20% to reach USD 7740.25 Million by 2034.

Food and Beverage Industry to Account for a Significant Share of the Industrial Air Blower Industry

Based on end use industry, air blowers are widely used in the food and beverage industry for applications like drying excess products, dust removal, belt cleaning, product slippage, and pan and tray cleaning, among others. Thus, the thriving food and beverage industry and the growing applications of air blowers in the sector are expected to enhance the growth of the market globally.

The Asia Pacific to Hold the Largest Market Share in the Industrial Air Blower Industry

Geographically, the Asia Pacific is predicted to hold the largest market share in the industrial air blower industry during the forecast period. This can be attributed to the increasing applications of air blowers in numerous industries such as pharmaceuticals, chemical and petrochemicals, and in the rapidly increasing food and beverage sector due to high population growth. The rapid urbanisation and industrialisation in emerging countries such as India and China are expected to significantly contribute to the market growth.

Industrial Air Blower: Market Segmentation

An industrial air blower is used to supply air or gas at a high flow to support various industries related processes. It consists of

blades and an electric fan that provide a current of air or gas to facilitate various processes in the industry. It helps in executing processes like ventilation, combustion, particulate transport, exhaust, cooling, aeration, drying, and removal of materials such as contaminants, dirt, dust, and particulate matter.

By movement of air, the industry can be segmented into:

- Positive Displacement
- Centrifugal

Based on business type, the industry can be segmented into:

- Equipment Sales
- Services

On the basis of end use industry, the market can be segmented into:

- Food and Beverage
- Wastewater Treatment
- Pharmaceutical
- Chemical and Petrochemicals
- Others

The regional markets for the product include:

- North America
- Europe
- Asia Pacific
- Latin America
- Middle East and Africa

Rapid Industrialisation and Urbanisation to Bolster the Growth of the Global Industrial Air Blower Industry

The industrial air blower industry has been growing considerably for the last few years. The industrialisation and urbanisation in rapidly developing economies and the increase in power consumption due to the growing global population are fuelling the growth of the market. A variety of blowers are available in the market based on the requirement of users. The manufacturers are focusing on developing blowers that are reliable and run without issues for a long time without generating a lot of noise, which is expected to aid the growth of the market. Moreover, the development of various industries such as cement, chemical, manufacturing, construction, and others is predicted to drive the growth of the market in the forecast period.

Key Industry Players in the Global Industrial Air Blower Market

The report gives a detailed analysis of the following key players in the global industrial air blower market, covering their competitive landscape, capacity, and latest developments like mergers, acquisitions, and investments, expansions of capacity, and plant turnarounds:

- Air Control Industries Ltd.
- Airtech Blower Industries
