### **Report description:**

The global portable fire extinguisher market value was estimated at USD 4.20 Billion in 2024 and is anticipated to grow from 2025 to 2034 at a CAGR of 6.50%, reaching a value of USD 7.88 Billion by 2034.

The fire protection sector has always banked on fire extinguishers and will continue to do so as the bedrock on which a full approach for fire protection is established and implemented. Fire protection is constantly undergoing advances as an intangible service and safety, and fire extinguishing techniques are constantly being improved. However, the absence of confidence among end customers in the use and installation of standard fire extinguishers leads to a dramatic shift in the fire protection industry's strategic outlook for producers.

### Portable Fire Extinguisher Market Segmentation

Portable fire extinguishers are used to spread extinguishing agent to cool burning fuel and should be chosen based on the type of material and fuel that is burning. Portable fire extinguishers are usually chosen based on whether they meet guidelines like that of Osha and according to their rating system which classify the extinguishers based on the amount of cooling agent it contains.

#### Portable Fire Extinguisher Market Analysis

The increasing numbers of household and commercial fire casualties are boosting the demand for portable extinguishers. It is anticipated that rigid public regulations requiring extinguishers to be installed will promote the market growth. There is an increasing demand for portable, lightweight, and easy to move extinguishers. The rising adoption of portable fire extinguishers for cars is expected to drive the industry further. Portable extinguishers are used to get fire under control as a first reaction to the fire. In addition, increasing consumer knowledge in emergency situations about private safety and property security is fuelling the demand for the portable extinguisher.

#### Competitive Landscape

The report presents a detailed analysis of the following key players in the global portable fire extinguisher market, looking into their capacity, market shares, and latest developments like capacity expansions, plant turnarounds, and mergers and acquisitions:

- Amerex Corporation
- Morita Holdings Corporation
- Britannia Fire Ltd
- Johnson Controls International Plc
- Ceasefire Industries Pvt. Ltd
- Flamestop Australia Pty. Ltd.
- Others
