

Tubing Spools Market Report by Type (Single Tubing, Dual Tubing), Application (Onshore, Offshore), End User (Well Testing, Well Completion), and Region 2025-2033

Market Report | 2025-10-01 | 138 pages | IMARC Group

AVAILABLE LICENSES:

- Electronic (PDF) Single User \$3999.00
- Five User Licence \$4999.00
- Enterprisewide License \$5999.00

Report description:

The global tubing spools market size reached USD 665.0 Million in 2024. Looking forward, IMARC Group expects the market to reach USD 998.3 Million by 2033, exhibiting a growth rate (CAGR) of 4.39% during 2025-2033.

A tubing spool is a tool made using different metals, including carbon steel, stainless steel, and high manganese steel, for carrying out operations safely and smoothly. It comprises a test port, upper bowl, load shoulder, secondary seal area, lockdown screw, outlet, lower and upper flanges, and ring gasket groove. It accommodates a wide range of tubing-string sizes for single- and multiple-string completion programs at minimum expenditure. Besides this, as it supports the tubing string on an oil well to connect with a tubing adapter on the top and helps seal the annular space between the casing and tubing, its sales are increasing around the world.

Tubing Spools Market Trends:

There is currently a surge in the demand for energy worldwide on account of rapid urbanization, rising global population and the growing dependence on electronics. As a result, governing agencies of numerous countries are increasingly investing in drilling and exploration activities. This represents one of the key factors contributing to the growth of the tubing spools market. Besides this, the rising redevelopment of mature oil wells is also driving the overall sales. Moreover, leading players are introducing durable and efficient tubing spools to expand their market share. For instance, Integrated Equipment, Inc. launched an extensive range of these spools with a straight bowl profile. Similarly, development of cloud-based visualization systems for oil and gas operators has increased the demand for tubing spools. Apart from this, market players are engaging in mergers and acquisition (M&A) activities to retain a competitive edge in the market. Furthermore, the growing utilization of pipe and fittings in the chemical sector is expected to create a lucrative market outlook.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global tubing spools market report, along with forecasts at the global, regional and country level from 2025-2033. Our report has categorized the market based on type, application and end user.

Breakup by Type:

- Single Tubing
- Dual Tubing

Breakup by Application:

- Onshore
- Offshore

Breakup by End User:

- Well Testing
- Well Completion

Breakup by Region:

- North America
 - o□United States
 - o□Canada
- Asia-Pacific
 - o□China
 - o□Japan
 - o□India
 - o□South Korea
 - o□Australia
 - o□Indonesia
 - o□Others
- Europe
 - o□Germany
 - o□France
 - o□United Kingdom
 - o□Italy
 - o□Spain
 - o□Russia
 - o□Others
- Latin America
 - o□Brazil
 - o□Mexico
 - o□Others
- Middle East and Africa

Competitive Landscape:

The competitive landscape of the industry has also been examined along with the profiles of the key players being Delta US Corporation LLC, Ethos Energy Group Limited (John Wood Group plc), Integrated Equipment, Inc, Jiangsu Sanyi Petroleum

Equipment Co. Ltd., JMP Petroleum Technologies Inc., MSP Drilex Inc., Sunnda Corporation, TSC Group Holdings Limited, Uztel S.A., Weir Group plc and Yantai Jereh Oilfield Services Group Co. Ltd.

Key Questions Answered in This Report:

- How has the global tubing spools market performed so far and how will it perform in the coming years ?
- What has been the impact of COVID-19 on the global tubing spools market ?
- What are the key regional markets ?
- What is the breakup of the market based on the type ?
- What is the breakup of the market based on the application ?
- What is the breakup of the market based on the end user ?
- What are the various stages in the value chain of the industry ?
- What are the key driving factors and challenges in the industry ?
- What is the structure of the global tubing spools market and who are the key players ?
- What is the degree of competition in the industry ?

Table of Contents:

1	Preface
2	Scope and Methodology
2.1	Objectives of the Study
2.2	Stakeholders
2.3	Data Sources
2.3.1	Primary Sources
2.3.2	Secondary Sources
2.4	Market Estimation
2.4.1	Bottom-Up Approach
2.4.2	Top-Down Approach
2.5	Forecasting Methodology
3	Executive Summary
4	Introduction
4.1	Overview
4.2	Key Industry Trends
5	Global Tubing Spools Market
5.1	Market Overview
5.2	Market Performance
5.3	Impact of COVID-19
5.4	Market Forecast
6	Market Breakup by Type
6.1	Single Tubing
6.1.1	Market Trends
6.1.2	Market Forecast
6.2	Dual Tubing
6.2.1	Market Trends
6.2.2	Market Forecast
7	Market Breakup by Application
7.1	Onshore
7.1.1	Market Trends
