

**France Fiberglass Market By Glass Type (A-Glass, C-Glass, D- Glass, E-Glass, S-Glass and Others), By Product Type (Glass Wool, Direct & Assembled Roving, Yarn and Chopped Strand), By Application (Construction & Infrastructure, Automotive, Wind Energy and Others), By Region, Competition, Forecast & Opportunities, 2020-2030F**

Market Report | 2025-09-30 | 85 pages | TechSci Research

**AVAILABLE LICENSES:**

- Single User License \$3500.00
- Multi-User License \$4500.00
- Custom Research License \$7000.00

**Report description:**

Market Overview

France Fiberglass Market was valued at USD 415.65 million in 2024 and is expected to reach USD 555.63 million by 2030 with a CAGR of 4.8% during the forecast period. France has been actively expanding its wind energy capacity as part of its commitment to renewable energy sources. Wind turbines are a crucial component of this expansion, and fiberglass composites are widely used in the manufacturing of wind turbine blades. These materials offer a combination of strength, durability, and lightweight properties that make them well-suited for the challenging conditions in the wind energy sector.

Key Market Drivers

Growing Demand for Lightweight and Sustainable Materials in Automotive Manufacturing

One significant driver for the fiberglass market in France is the increasing demand for lightweight and sustainable materials in various industries, particularly the automotive sector. Fiberglass composites offer an excellent solution to meet these requirements, as they are strong, lightweight, and can be tailored to meet specific performance and design criteria. As the automotive industry strives to reduce emissions and improve fuel efficiency, automakers are turning to fiberglass composites to replace traditional metal components.

Fiberglass-reinforced plastics are being used in various automotive applications, such as body panels, chassis components, and interior parts. This trend is driven by the need to reduce vehicle weight, which, in turn, leads to lower fuel consumption and reduced carbon emissions. Furthermore, fiberglass composites are corrosion-resistant, which prolongs the lifespan of automotive parts and reduces maintenance costs.

Sustainability concerns are driving the adoption of fiberglass in the automotive industry. Fiberglass materials are recyclable and

www.scotts-international.com

have a lower environmental footprint compared to some traditional materials. As governments and consumers demand greener solutions, the use of fiberglass composites is expected to grow, making it a major driver for the fiberglass market in France.

#### Key Market Challenges

##### Intense Competition in a Mature Market

One of the significant challenges facing the fiberglass market in France is the intense competition within the industry. The market for fiberglass and fiberglass-reinforced composites is relatively mature and well-established, with numerous domestic and international manufacturers vying for market share. This high level of competition puts pressure on companies to differentiate themselves through innovation, quality, and cost-effectiveness.

The mature nature of the market means that companies face difficulties in maintaining profit margins and sustaining growth. Price wars can erupt among manufacturers, particularly in commoditized segments of the market, where fiberglass products are viewed as interchangeable. This intense competition can lead to margin erosion and financial stress for some companies, making it challenging for them to invest in research and development or adopt more sustainable manufacturing processes.

Moreover, competition is not limited to traditional fiberglass producers. Emerging materials like carbon fiber and advanced plastics are increasingly seen as viable alternatives in certain applications, posing a threat to the fiberglass market. To overcome this challenge, fiberglass manufacturers in France must focus on innovation, diversification, and the development of high-value, specialty products to remain competitive in an ever-evolving market.

#### Key Market Trends

##### Increasing Adoption of Advanced Composite Materials for Sustainable Solutions

One notable trend in the France fiberglass market is the growing adoption of advanced composite materials, which offer more sustainable solutions across various industries. As sustainability becomes a top priority for consumers, businesses, and governments, there is a heightened demand for materials that can help reduce environmental impact while maintaining performance and durability. Advanced composites, including fiberglass composites, are increasingly favored for their ability to meet these requirements. More than 90% of recreational boats manufactured globally use fiberglass hulls due to their strength-to-weight ratio, low maintenance, and seawater corrosion resistance.

Fiberglass composites are known for their lightweight yet strong properties, which make them a compelling choice for applications where weight reduction is essential, such as in the automotive and aerospace sectors. These materials can contribute to improved fuel efficiency, reduced greenhouse gas emissions, and enhanced overall energy performance. Moreover, fiberglass is corrosion-resistant, extending the lifespan of products and reducing the need for maintenance and replacement, further aligning with sustainability goals.

In addition to these benefits, the adoption of recyclable and bio-based resins in fiberglass manufacturing is on the rise, making composite materials even more eco-friendly. Manufacturers in the France fiberglass market are increasingly focusing on product design and engineering to enhance the sustainability of their offerings, and this trend is expected to continue as environmental concerns and regulations become more stringent. Fiberglass rebar is now used in over 500+ infrastructure projects annually worldwide due to its non-conductive nature, ideal for MRI rooms, power plants, and coastal buildings.

The construction industry is another sector where advanced composites, including fiberglass, are gaining prominence due to their sustainability advantages. Fiberglass-reinforced plastics are used in architectural applications like cladding, roofing, and insulation, helping to create energy-efficient and environmentally friendly buildings.

As France pushes for sustainability in manufacturing and construction, the adoption of advanced composite materials like fiberglass is expected to be a prominent trend in the market, driving innovation and creating new opportunities for growth.

#### Key Market Players

- [ ]BLG Fiberglass Manufacturing
- [ ]Glass Fibre Europe
- [ ]Owens Corning
- [ ]3B - the Fiberglass Company
- [ ]NOV, Inc.
- [ ]Chomarat Group
- [ ]Exel Composites Plc

www.scotts-international.com

-□BGF Industries

Report Scope:

In this report, the France Fiberglass Market has been segmented into the following categories, in addition to the industry trends which have also been detailed below:

-□France Fiberglass Market, By Glass Type:

- o A-Glass
- o C-Glass
- o D- Glass
- o E-Glass
- o S-Glass
- o Others

-□France Fiberglass Market, By Product Type:

- o Glass Wool
- o Direct & Assembled Roving
- o Yarn
- o Chopped Strand

-□France Fiberglass Market, By Application:

- o Construction & Infrastructure
- o Automotive
- o Wind Energy
- o Others

-□France Fiberglass Market, By Region:

- o Northern France
- o Western France
- o Southern France
- o Eastern France
- o Central France

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in the France Fiberglass Market.

Available Customizations:

France Fiberglass Market report with the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

-□Detailed analysis and profiling of additional market players (up to five).

## **Table of Contents:**

1. Product Overview
  - 1.1. Market Definition
  - 1.2. Scope of the Market
    - 1.2.1. Markets Covered
    - 1.2.2. Years Considered for Study
    - 1.2.3. Key Market Segmentations
2. Research Methodology
  - 2.1. Objective of the Study
  - 2.2. Baseline Methodology
  - 2.3. Formulation of the Scope
  - 2.4. Assumptions and Limitations

**Scotts International. EU Vat number: PL 6772247784**

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

- 2.5. Sources of Research
  - 2.5.1. Secondary Research
  - 2.5.2. Primary Research
- 2.6. Approach for the Market Study
  - 2.6.1. The Bottom-Up Approach
  - 2.6.2. The Top-Down Approach
- 2.7. Methodology Followed for Calculation of Market Size & Market Shares
- 2.8. Forecasting Methodology
  - 2.8.1. Data Triangulation & Validation
- 3. Executive Summary
- 4. Impact of COVID-19 on France Fiberglass Market
- 5. Voice of Customer
- 6. France Fiberglass Market Overview
- 7. France Fiberglass Market Outlook
  - 7.1. Market Size & Forecast
    - 7.1.1. By Value
  - 7.2. Market Share & Forecast
    - 7.2.1. By Glass Type (A-Glass, C-Glass, D- Glass, E-Glass, S-Glass and Others)
    - 7.2.2. By Product Type (Glass Wool, Direct & Assembled Roving, Yarn and Chopped Strand)
    - 7.2.3. By Application (Construction & Infrastructure, Automotive, Wind Energy, Electronics, Manufacturing, Marine and Others)
    - 7.2.4. By Region (Northern France, Western France, Southern France, Eastern France and Central France)
  - 7.3. By Company (2024)
  - 7.4. Market Map
- 8. Northern France Fiberglass Market Outlook
  - 8.1. Market Size & Forecast
    - 8.1.1. By Value
  - 8.2. Market Share & Forecast
    - 8.2.1. By Glass Type
    - 8.2.2. By Product Type
    - 8.2.3. By Application
- 9. Western France Fiberglass Market Outlook
  - 9.1. Market Size & Forecast
    - 9.1.1. By Value
  - 9.2. Market Share & Forecast
    - 9.2.1. By Glass Type
    - 9.2.2. By Product Type
    - 9.2.3. By Application
- 10. Southern France Fiberglass Market Outlook
  - 10.1. Market Size & Forecast
    - 10.1.1. By Value
  - 10.2. Market Share & Forecast
    - 10.2.1. By Glass Type
    - 10.2.2. By Product Type
    - 10.2.3. By Application
- 11. Eastern France Fiberglass Market Outlook
  - 11.1. Market Size & Forecast
    - 11.1.1. By Value
