Report description:

Software in South Korea

Summary

Software in South Korea industry profile provides top-line qualitative and quantitative summary information including: market size (value 2019-24, and forecast to 2029). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- Software market encompasses applications used for business operations (e.g., ERP, CRM, etc.), as well as infrastructure software that manages IT systems and operations. The market value represents the revenue generated from sales and subscriptions of various software packages and offerings. It includes both signed deals that remain under contract and the annual revenues associated with new contracts signed within a specific calendar year. This excludes sales opportunities for third-party service providers.
- The South Korean software market recorded revenues of \$17.3 billion in 2024, representing a compound annual growth rate (CAGR) of 7.3% between 2019 and 2024.
- The business process applications segment accounted for the market's largest proportion in 2024, with total revenues of \$4.0 billion, equivalent to 23.3% of the market's overall value.
- The expansion of South Korea's software market is driven by robust government initiatives and rapid digitalization across sectors. National programs such as Digital New Deal, K-Cloud Project, and Smart Korea Initiative are encouraging enterprises to accelerate digital transformation through advanced ERP, CRM, and business process applications.

Scope

Scotts International. EU Vat number: PL 6772247784

- Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the software market in South Korea
- Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the software market in South Korea
- Leading company profiles reveal details of key software market players' global operations and financial performance
- Add weight to presentations and pitches by understanding the future growth prospects of the South Korea software market with five year forecasts

Reasons to Buy

- What was the size of the South Korea software market by value in 2024?
- What will be the size of the South Korea software market in 2029?
- What factors are affecting the strength of competition in the South Korea software market?
- How has the market performed over the last five years?
- What are the main segments that make up South Korea's software market?

Table of Contents:

Table of Contents

1 Executive Summary

- 1.1. Market value
- 1.2. Market value forecast
- 1.3. Category segmentation
- 1.4. Geography segmentation
- 1.5. Market rivalry
- 1.6. Competitive landscape

2 Market Overview

- 2.1. Market definition
- 2.2. Market analysis

3 Market Data

- 3.1. Market value

4 Market Segmentation

- 4.1. Category segmentation
- 4.2. Geography segmentation

5 Market Outlook

- 5.1. Market value forecast

6 Five Forces Analysis

- 6.1. Summary
- 6.2. Buyer power
- 6.3. Supplier power
- 6.4. New entrants
- 6.5. Threat of substitutes
- 6.6. Degree of rivalry

7 Competitive Landscape

- 7.1. Who are the leading players?
- 7.2. What strategies do the leading players follow?
- 7.3. What are the strengths of the leading payers?

8 Company Profiles
